

BATTLES SO FAR
ON SMALL SCALESerious Fighting Has Not Yet
Begun in Balkans.

BOTH SIDES ISSUE DENIALS

Constantinople and Sofia Authorities
Repudiate Reported Successes by
the Respective Opponents—Monte-
negrins Take Plava and Gosture and
the Greeks Occupy Ellassona.London, Oct. 21.—No really serious
fighting has yet been reported from
the seat of war. The Montenegrins
have captured Plava and Gosture and
the Greeks have occupied Ellassona;
but these are regarded as minor af-
fairs in which no real resistance was
offered.On the Serbian and Bulgarian front-
iers the situation is little changed.
An unconfirmed report says the Bul-
garians have captured Kik-Kiliseh,
but, like many similar reports, this is
probably untrue.From both Constantinople and Sofia
are issued constant denials of suc-
cesses claimed by the respective op-
ponents. For instance, an official
statement comes from Sofia declaring
that all the reported Turkish inva-
sions of Bulgarian territory are pure
inventions, while on the previous day
the Turkish government denied the
capture of Turkish troops by Monte-
negrins at Tushli.This campaign of misrepresentation
has become so serious that the au-
thorities at Sofia have issued a decree
threatening summary punishment by
martial law to those who circulate
such inventions.The Serbian advance in the direc-
tion of Uskup encounters little re-
sistance. It is reported that the Ser-
bian headquarters are being slowly
transferred from Nish to Verna. In
this district heavy rains are impeding
operations.

FERDINAND EXHORTS ARMY

Issues Proclamation Urging Subjects
to Fight Historic Enemy.Sofia, Oct. 21.—King Ferdinand has
issued a proclamation to the army in
which he declared:"Having failed in ameliorating the
suffering of our brothers in the Otto-
man empire, supported by our beloved
nation, we have ordered our brave
army to cross the frontier and engage
in the struggle against our historic
enemy. Our work is sacred in the
cause of humanity. . . I am sure
that the men of all ranks in the army
will be inspired by the importance of
their mission and justify the hopes of
the nation in them."Forward, with the aid of the cross
and your arms. May God in his jus-
tice support our rights."

WHITE FLAG FIRED UPON

Servians Accuse Albanians of Treach-
erous Act.Belgrade, Oct. 21.—Details have
been received of a treacherous act by
Albanians on the Serbian posts near
Prepalatz, forty miles to the south of
Nish, on Thursday. Albanian irregu-
lars, who constituted the attacking
party, were repulsed and hoisted a
white flag.When a Serbian captain with a white
flag approached the regulars opened
fire, killing an officer and twelve men
and wounding forty. The Serbian ar-
tillery immediately shelled the enemy,
killing 200.

KING PETER'S PROCLAMATION

Calls on Soldiers to Wage Holy War
for Liberty.Belgrade, Serbia, Oct. 21.—In the
presence of the troops at Nish King
Peter read a long proclamation ex-
plaining causes of Serbia's declara-
tion of war against Turkey. He de-
clared that the condition of Serbs in
Turkey had been for many years ab-
solutely intolerable and said:"I ask you, dear brethren, to assist
with all your hearts and all your
strength my valiant army. Long live
my dear Serbian nation."

TWO BOYS KILLED BY TRAIN

Lansing, Mich., Oct. 21.—Lee Mil-
lard, twelve years old, and Carlisle
Pinckney, ten, were killed by a Grand
Trunk train near here. The lads
stepped out of the way of a west-
bound train directly in front of an
eastbound passenger train.

WILSON ENDS SPEAKING TOUR

WIN Not Again Take Stump Until
Colonel Recovers.Princeton, N. J., Oct. 21.—Governor
Woodrow Wilson returned to his home
here, having made his last campaign
speech, he said, until Colonel Roose-
velt had recovered.The governor said he had made no
plans for the immediate future or the
remainder of the campaign; that re-
quests for speeches were many, but
he was firm in his intention of keep-
ing off the stump while one of his op-
ponents was incapacitated. He prob-
ably will express his views on public
questions through statements and an-
nouncements.SAYS THEY DON'T

REVIEWS BUSINESS AFFAIRS

Republican Candidate for Re-Election
Points to Prosperity as One Reason
Why He Should Be Returned and
Claims He Has Assurances of Large
Democratic Support Among Business
and Laboring Men.Beverly, Mass., Oct. 21.—President
Taft issued a statement predicting
Republican victory next month and
declaring it "obvious that either the
Republican or Democratic nominees
will be elected." He asserts it to be
an open secret that "the third party
does not expect to win."The president reviews business con-
ditions of the country which, he says,
are unprecedentedly prosperous and as-
serts the belief that the sober judg-
ment of the voters will continue pres-
ent conditions. The statement reads,
in part:"Fifty-two years ago seceders from
the Union thought they were facing
a divided North and would win an
easy victory. There had been division
among the loyal people, but all united
in face of the common danger and in
addition a great number of Demo-
crats joined the Republicans in the
successful struggle for the nation's
life. It was said by hostile critics that
the ship of state was drifting."It drifted—yes—with Lincoln at the
helm, from the reefs of secession and
slavery into the placid waters of
union and liberty. Under Lincoln's
successors it has sailed on, propelled
by the winds of prosperity, save when
its voyage has been halted by just
such a visitation of storm and stress,
of torn protection sails and broken
business bulkheads, as we now are
threatened with, should Baltimore sup-
plant Chicago, which it did not in
1860 and will not in 1912."Our friends, the enemy, say that
the Democracy has learned its mis-
takes and does not mean to repeat
them. In some measure true as to the
past; and the Republican party has
had a difficult, if successful, task in
teaching the Democracy its mistakes,
so far as it has been taught; but
somehow the obstinate pupil comes
forward every four years to be taught
again."I am glad to say, however, that
many Democrats have learned their
lessons well and are refusing to leave
the firm ground of prosperity for the
quagmire of business disruption, trade
depression and commercial and indus-
trial depletion.

Claims Democratic Support.

"From all parts of the country as-
surances are coming that Democrats
intend to vote for the Republican can-
didates and a continuation of pros-
perous business conditions and
against the programs of economic
confusion and socialistic subversion
of our institutions supported by the
Democratic candidates and their al-
lies. Democratic workmen refuse
to be led from the factory and good
wages of 1912 back to the Democratic
hard times of 1893-97. They prefer
independence and money in the sav-
ings bank to loss of employment and
dependence on charity."Democratic business men feel the
same way. They know that when in-
dustries languish their business lan-
guishes too. They pay envelopes are
the feeders of trade in every form.
When they are empty or scrippily the
biggest department store feels the ef-
fect, as well as the corner grocery."
"Our home market has drifted from
\$7,000,000,000 in 1890 to \$33,000,000,000
—not a bad drift that. And it is this
magnificent home market, without
equal in the past or present, that the
Democrats propose to dismember and
disorganize, and invite every nation
in the world to prey upon, while those
same nations keep the barriers to
their own markets just as high as
they please."Then look at our foreign trade. A
favorite Democratic argument is that
Republicans build up and cultivate the
home market at the expense of our
foreign commerce, when the fact is
that the growth of foreign trade has
almost kept proportionate pace with
the domestic—from \$1,000,000,000 in
1870 to \$4,000,000,000 in 1912."As we come nearer to the day of
election it is to be expected that the
intelligent voters will appreciate more
keenly the responsibility which at-
taches to his ballot. In national elec-
tions, at least, the great majority like
to feel that they are voting for a can-
didate who has a chance of success.
It is obvious that either the Repub-
lican or the Democratic nominees will
be elected."It is well known to every one, an
open secret on every street corner,
that the third term party does not
expect success."The Talipot Palm.
The leaf of the Ceylon talipot palm,
which grows to 100 feet in height, is so
wide that it will cover twenty men.

PRINCE CONSTANTINE.

Leads an Attack Upon a
Strong Turkish Position.

GREEKS DISLodge TURKS

Crown Prince Leads Attack on Strong
Positions.Athens, Oct. 21.—After a four-hour
engagement the Greeks dislodged the
Turks from the strong positions which
they had taken in the defense of El-
lassona, at the foot of Mount Olym-
pus, and occupied the town. Crown
Prince Constantine was in personal
command and received a baptism of
fire. The Greek troops showed great
courage. Their losses were small.The Turks retired toward Saranda-
poro pass, where the main forces had
concentrated. The Greeks occupy all
the heights to the north of Ellassona
and a decisive battle is imminent.MEXICAN SOLDIERS
JOIN INSURGENTSTwo Gunboats Open Fire on the
Refugees.Vera Cruz, Mex., Oct. 21.—The sol-
diers of the Twenty-first battalion
garrisoning Port Uloua, located on an
island in this harbor, have revolted
and joined the revolutionary forces
of Felix Diaz.The gunboats Bravo and Morelos
opened fire on the refugees, killing
several and wounding others. The
soldiers of the Port Uloua garrison re-
mained inert, refusing to return the
fire of their comrades. The situation
at the island is especially serious, as
Port Uloua also is used as a peniten-
tiary.Until the fire was opened by the
Bravo and Morelos after the desertion
of the garrison at Port Uloua it was
difficult to understand the attitude of
the gunboats. Commodore Azueta,
commanding the warships still loyal
to the government, kept his guns and
searchlights trained incessantly on
the city, allowing no communication
between the boats and shore.

APPEARS LIKE SUICIDE PACT

Two Men Hang Themselves in Woods
Near St. Paul.St. Paul, Oct. 21.—The bodies of
two unknown men, partly decomposed,
were found beneath an oak tree in
the woods near the main road between
Riverside and Newport in a position
to suggest that they had carried out a
suicide pact. The discovery was made
by five young men, two from St. Paul,
who were rabbit hunting in the woods,
and were led to the spot by their
rabbit dogs.One of the bodies, that of a man
about fifty-five years, was still sus-
pended from a limb of the tree by a
light clothes line, with his knees
crooked, suggesting that he had taken
his own life. The other body had de-
composed to such an extent that the
trunk had fallen to the ground, leav-
ing the head suspended in a noose.
The bodies were on separate limbs on
opposite sides of the tree.

BECKER WILL TAKE STAND

Defendant in Murder Case Wants to
Tell His Story.New York, Oct. 21.—Police Lieuten-
ant Charles Becker will take the wit-
ness stand in his own defense in his
trial on the charge of instigating the
murder of Herman Rosenthal, the
gambler, according to John F. McIn-
tyre, his chief counsel, who stated
that he had yielded to his client's de-
sire in the matter and that Becker's
story would be heard within the next
two or three days."We have finally decided to allow
Becker to testify," said his attorney.
"He has been anxious to do so all
along, but we have not thought it
necessary. He wants to clear himself,
however, by his own testimony. He
will tell the whole story."

DEAD MEN TELL NO TALES.

Truth of the Old Saying Is Exem-
plified in the Senate Committee's In-
vestigation of Political Campaign
Funds—The Isle of Pines May Some
Day Become a "Problem."

By ARTHUR W. DUNN.

Washington, Oct. 21.—[Special.]—Our
little wars or threatened wars are not
very serious. While our gallant ma-
rines are shooting a few Nicaraguans
and our brave soldiers are watching
the Mexican border, and there have
been some scare heads in the papers,
we have felt assured that nothing seri-
ous was happening or was expected to
happen.The war secretary and the head of
the army have been touring the coun-
try regardless of the demands for
troops to protect us from Mexican ma-
raders. The secretary of the navy
and his assistant have been away on
vacations or looking at the fleet in
New York harbor, showing that they
feared no real difficulty or hard work
for the navy either in Nicaragua or in
Santo Domingo.War Correspondents on the Job.
But the war correspondents have
been on the job all right. Officers of
the army who are stationed on the
Mexican border write here that the al-
leged big battles are mostly in the
headlines and imaginations of the war
correspondents. A big battle whose
first reports show 600 killed often dwine
die to six when the facts are known.It recalls the big battles between the
Spanish troops and the insurgents in
Cuba just previous to the Spanish war.
Reports of those battles included
enough killed to have wiped out the
population of Cuba. The same was
largely true of the "battles" which
made generals of soldiers in the Phil-
ippines. The man with a good ad-
justant and fair press agent could par-
ticipate in enough "battles" in a month to
give him the star of a brigadier.

Dead Men Tell No Tales.

They used to say on the frontier
that the only good Indian was a dead
Indian. They might also say that the
only good campaign manager or treas-
urer of a campaign is a dead one.
"Dead men tell no tales," and so the
many allegations which have been
made and which could be proved one
way or the other if Cornelius Bliss and
Mark Hanna were still living will sim-
ply have to stand as charges unproved
and not successfully denied.After all, what does it matter un-
less direct bribery could be proved?
Out in one Ohio county thousands of
men were disfranchised because they
accepted bribes for their votes. It has
not been shown that any of the cam-
paign funds for either Roosevelt or
Taft found their way to these Ohio
voters. It is the improper use of money
in elections to which the people object.

Isle of Pines.

It is strange that no one has attempt-
ed for years to settle the status of the
Isle of Pines. That is an island which
George D. Melkiojeff with one stroke
of the pen, as it were, when he was as-
sistant secretary of war, made a part
of the United States. Elihu Root a
secretary of war, afterward revoked
the order, but during the time it was
in force several citizens of the United
States acquired rights as Americans.When Root was secretary of state
he negotiated a treaty with Cuba cel-
ing all right and title in the Isle of
Pines to that government. But his
friends of the Americans have never
allowed that treaty to be ratified. And
there the matter stands. Sometimes
when Cuban affairs become acute we
will have an Isle of Pines problem on
our hands.

Beef From Australia.

A man from Australia has been in
this country looking up the prospects
of sales of beef from that continent in
the United States. It looks as if it
were a sure thing that the tariff on
beef will be removed, no matter which
party wins next month. The high
cost of living, according to many
speeches in congress, is due in part to
the duty on meats. In time we will
have Australian meats in this country.

Loses High Salaried Woman.

There are not more than two or three
high salaried women in the govern-
ment employ. The best paid position
now held by a woman is the chief of
the child labor bureau. One high sal-
aried woman, Miss Margaret Valentine
Kelly, who was assistant director of
the mint, has become a bride, and the
government has lost one of its best in-
formed officials. If it had been a man
who married he would have held his
position.Want More Money.
Coincident with the assembling of
congress is the meeting of the rivers
and harbors congress. This is the or-
ganization that has fulfilled Dr.
Wiley's definition of a scientist. It
makes a \$2,000,000 appropriation grow
where a \$1,000,000 appropriation grew
the year before. Even better than that,
it makes an annual river and harbor
appropriation bill instead of one every
two years.Very High.

Carmi Thompson Announces He Will
Return to Law Practice.Washington, Oct. 21.—Carmi Thomp-
son of Portsmouth, O., secretary to
President Taft, has felt the call of
Blackstone.Following the example of Secretary
Wilson, Attorney General Wicker-
sham and other Taft men Mr. Thomp-
son announced that on March 4 he
would return to Portsmouth and re-
sume the practice of law, no matter
whether President Taft was re-elected
or not.JOHNSON WILL TAKE
ROOSEVELT'S PLACECalifornia Governor to Fill Speak-
ing Engagements.Chicago, Oct. 21.—Governor John-
son left here for New York, where he
will complete arrangements to fill
Colonel Roosevelt's speaking dates in
the East the remainder of the cam-
paign and direct the fight.The complete itinerary has not been
given out, but it is known that he will
embrace the states of New York, Mas-
sachusetts, New Hampshire, Connecti-
cut, Maine, New Jersey, Delaware and
Pennsylvania. He expected to spend
at least one day in Maine and another
in Massachusetts. He will travel by
special train.Before leaving the governor issued a
statement directed to the citizens of
California, explaining his reasons for
returning to the East."My campaign in the East was con-
cluded in Chicago and my prepara-
tions had been made for departure to
arrive in our state Wednesday next.
I expected to devote the remainder of
the time before election to California.
The attempted assassination of
Colonel Roosevelt has completely al-
tered all of our plans and, as the vice
presidential candidate of the Progress-
ive party, I have been asked, so far
as I am able, to take up the burden
that Colonel Roosevelt was so ably
and bravely carrying to continue the
campaign until its close."

FORTY BURNED IN EXPLOSION

California Mayor and Three Others
May Die.Petaluma, Cal., Oct. 21.—Forty per-
sons were severely burned in an auto-
mobile explosion here which may cost
the lives of Mayor Zartman of this
town and three others.A crowd gathered about a burning
automobile that had been dragged
from a garage. Mayor Zartman, who
is a former chief of the fire depart-
ment, responded to the fire alarm and
attended the blaze with a chemical
extinguisher. The mayor was thrown
forty feet by the explosion.James Mott, Maurice and W. Bran-
don were enveloped in the flames and
rescued a few minutes later at the
point of death. The crowd was swept
by a blast of flames and several per-
sons were trampled on in the panic
which followed.

Turks have been driven back across

Man Claiming to Be Secret Diplomatic
Representative of Colombian Govern-
ment Sends Roosevelt Box of
Flowers and Note Saying Atrocious
Crime Was Committed in Taking
Panama From Colombia.Chicago, Oct. 21.—An attempt to see
Colonel Roosevelt was made at Mercy
hospital by Luis E. Molina, who gave
his address as Bogota, Colombia, and
said that he was a secret diplomatic
representative of the Colombian gov-
ernment. He was stopped by the
guard detectives and city police who
were on duty.Molina said that his father is a sen-
ator of Colombia. He sent Colonel
Roosevelt a postal card and wrote him
a long letter containing accusations
that the colonel had committed "an
atrocious crime" in taking Panama
from Colombia and bidding him beware
of the vengeance of God.Molina was accompanied by two
Mexicans who gave their names as B.
Carollo and Esteban Moran. They
said they had known Molina but a few
hours.Molina declared he would go to New
York on the same train with the col-
onel and would see him there or would
follow him to Oyster Bay. He exhib-
ited a ticket over the Pennsylvania
railroad to New York that would en-
title him to travel on the train taken
by the colonel. He also displayed a
large roll of bills.The detectives, after questioning
Molina, permitted him to depart. Col-
onel Roosevelt knew nothing of the at-
tempt to see him.Molina sent a box of flowers to the
colonel and followed them with a note
written on a postal card. It read:
"Colonel Roosevelt: I sincerely de-
sire your complete recovery. Now
that you are lying on a bed of pain,
remember the Almighty God and how
easy it is to disappear from the earth.
After this remember your greatest of-
fense in your official career—the rob-
bery of Panama from Colombia. Try
to remedy this iniquity and God will
protect you."The detectives said Molina was not
armed.
Molina said he came from New Or-
leans especially to see the colonel as
soon as he heard of the shooting. He
said he followed him in the West dur-
ing his last speaking tour from Texas
to California.

JOHNSON STATUE UNVEILED

Large Throng Views Simple Ceremony
at St. Paul.St. Paul, Oct. 21.—In the presence
of 10,000 Minnesotans who had been
his friends and admirers the bronze
presentation of John Albert Johnson,
thrice governor of Minnesota, raised
before the main entrance of the state
capitol in St. Paul was unveiled with
simple ceremony. Gathered about the
monument to which 100,000 persons
had contributed were the high men of
church and state and the late govern-
or's lifelong friends in all ranks of
life. His loyal widow, still attired in
sombre black as in the days at
Rochester when Governor Johnson
was fighting his battle with death,
was an important though a modest
figure in the events of the day.

THINKS OIL DECREE GOOD

Attorney General Reveals Result of
His Inquiry.Washington, Oct. 21.—To sustain
his contention that the decree dis-
solving the Standard Oil company
gave the relief sought by the anti-
trust suit against the corporation At-
torney General Wickersham issued
a statement revealing some of the re-
sults of an inquiry he has been mak-
ing into conditions in the oil industry.
The statement, intended as a further
reply to criticisms that such decrees
as that of the Standard Oil benefited
the trusts, was built around a letter,
optimistic as to present conditions,
which the attorney general recently
received from C. D. Chamberlain, sec-
retary and general counsel of the Na-
tional Petroleum association.

barge tipped and the trio jumped into
a stiff attached to the ferry, but it
also was upset and the men were car-
ried along in the rushing waters
through Death canyon, despite their
feeble struggles.

FIRST ORE SHIPPED ON N. P. RAILWAY

Cuyuna-Mille Lacs Mine Ships Five Cars of Manganese Ore to the Ashland Furnaces Sunday

1,000 PEOPLE VISIT THE RANGE

Big Excursion From Duluth is First Passenger Train on New Cuyuna Northern Railway

Sunday, October 20, was a red letter day in the history of the Cuyuna-Mille Lacs Iron company, of Duluth. It marked the first shipment of ore on the Northern Pacific railway and its branch, the Cuyuna Northern railway, five cars of the highest grade of manganese ore ever shipped on the Cuyuna and for that matter in the United States, being shipped to the Ashland, Wis. furnace.

It marked the opening of the Cuyuna Northern railway and the running of the first passenger train on that line, the extension having just been completed and extending from the Northern Pacific railway at Deerwood to the Cuyuna-Mille Lacs Co. mine.

At Duluth the excursion of the company's stockholders and friends to the mine, 500 people, was the biggest excursion of Duluth and Superior people ever leaving the Head of the Lakes.

Fine weather characterized the excursion. Stops were made enroute adding more to the passenger list. At Deerwood many Brainerd, Fargo and Staples stockholders and friends boarded the train as it arrived at eleven o'clock. The heavy passenger engine was exchanged for a lighter engine and blowing a number of cheery toots and amid the cheers of the passengers, the excursion train commenced its first run on the Cuyuna Northern.

At Ironton a salute of dynamite and giant powder awakened the hills. The streets were black with people. The Third Regiment band, accompanying the excursionists, played. Mayor Bamberg, of Ironton, and Capt. Anderson, mayor of Crosby, welcomed the party to the Cuyuna range. More people crowded on.

Past Ironton and on to the mine the train made its way. Arriving there the mine whistle roared a welcome and was answered by the locomotive whistle. People poured off the train and walked down the track to the mine. Arriving there they made a heavy fringe of humanity about the stockpile, the ore cars, lumber piles and stood still while photographers of the Duluth Herald, the Duluth News Tribune and range kodak professionals and fiends snapped the crowd. Gallagher, the veteran of the Duluth Herald, took a number of large pictures. Artist Handy, of the Duluth News Tribune, used for the first time his panoramic camera.

Newspaper men were as thick as bees. Every paper on the range and many of northern Minnesota were represented. And there was material enough for all to write about. Autos came buzzing from Brainerd, Aitkin, Bay Lake, Cuyuna, Crosby, Ironton and other points.

E. J. W. Donahue, president of the mining company, was the master of ceremonies, and was here, there and everywhere. The visitors inspected the stockpile, they went down in the mine, they examined the

COL. ROOSEVELT LEAVES CHICAGO

Special to Dispatch:

Chicago, Oct. 21, 1912—Colonel Roosevelt left here at eight twenty-five this morning for Oyster Bay. The Colonel was exhausted when he requested that he be allowed to rest for a few minutes saying that when he felt less tired he wanted to read the latest newspapers. He had walked several steps in leaving the hospital and in going from the ambulance to the car, and aside from the fatigue he insisted he was "feeling bully."

machinery, they talked to the men and they were satisfied with the property and with Donahue, Denny, Locker and the rest of the officials of the company. Their representations were proven by the actual conditions.

Capt. Pascoe was as proud as any of the company of the success that had been achieved. He would not talk much, but it was ascertained that it was Capt. Pascoe who triumphed over trials and tribulations and crowded the timber shaft through the quicksand and established a range record for quick and successful sinking. At the 126 foot level the manganese was struck whose quality electrified the country. The drill records show the ore to be 420 feet deep. A drift has been excavated 28 feet wide and there is no indication of a pinching out of the deposit. During the coming winter the company expects to average six cars a week to the furnaces.

Shortly after noon clouds of steam laden with the odor of juicy clams, lobsters, bluefish, sweet potatoes, chicken and bear steak floated through the crowd and the appetites of the visitors sharpened by the October air, were of such alarming proportions that the whole clam bake was speedily gotten away with. Cigars, tobacco and snuff were passed around.

On the return trip Mr. Donahue announced that arrangements had been made for a special on the Soo to take the visitors to Crosby and Cuyuna to inspect the mines and the towns. At the Armour No. 1 mine the Cuyuna Northern train halted and the visitors walked to the waiting Soo special. They were whirled to this section of the range and back again to Ironton.

Ironton was inspected and the mines near it, including the territory at the north end of the town, where houses are being rolled back by Contractor C. B. Rowley, of Brainerd, to make way for the shaft of the Cuyuna-Duluth Mining Co.

The train was boarded here, the band played again, as it had played in every town and community visited on the range, and the excursion train swung home, bearing a happy lot of mortals, satisfied with the range, the excursion, the company, with Ed. Donahue and the picnic and vowing they never had had a better time in the entire history of their lives.

My wife arose from her bed one morn. She arose with an aching head; How well I'd been, she said to me, If I'd taken Hollister's Rocky Mountain Tea. Adv.

UNION MEETING IN POLITICS

Speakers of Many Parties to be Heard at a Gathering in Pequot on October 28th

COL. THORP CLOSING FOR TAFT

Democrats, Bull Moosers, Socialists and Republicans to Fraternize That Evening

A unique idea in political debates will be carried out at Pequot on Monday evening, October 28th, when representatives of the democrats, Bull Moose socialist and republican parties will be heard in the order named.

Col. Freeman Thorp, a friend of President Taft, will close for the republican party and make one of his characteristic and intensely patriotic speeches. Col. Thorp in years gone by managed the campaign of Pres. Garfield, of Ohio, for senator and had as his opponent Will Taft, who managed the campaign of his father, Alphonso Taft.

All personalities will be avoided. It will be a full, free and open discussion. A chairman will preside. All opinions will be treated with respect and a square deal is vouchsafed every speaker and each will be listened to with attention.

Col. Freeman Thorp, in closing, will take up the arguments advanced by all of the speakers preceding him. The idea of a union meeting is a good one. If successful at Pequot, Col. Thorp will see what can be done for a similar meeting at Brainerd.

Excursion Notes

In speaking about the things made in Duluth, there is nothing to compare with that broad spirit of good fellowship, of enthusiasm, which does things for the sheer love of accomplishment, which believes in ceaseless activity and the showing of results, in short, the DULUTH SPIRIT. It is Duluth more than any other city whose people are investing their money on the Cuyuna, helping settle its towns and exploiting the range resources. Duluth money, whether lodged in big industries by wealthy men or distributed about by individual shareholders, is doing its part to develop the Cuyuna range and credit is due them for the grand showing made. The spirit to DO THINGS is thoroughly exemplified in Duluth and is one of the greatest assets of that city.

On the way home officials of the Cuyuna-Mille Lacs Co. distributed two barrels of apples.

F. F. Frater, of Fargo, N. D., promised to bring home a bear steak for every one of his friends in the Dakota town.

Red badges distinguished all the stockholders and their friends and were carefully preserved as souvenirs.

Reid, of the Duluth Herald, formed a picture as he was seen munching bread and celery.

Handy, of the Duluth News Tribune got out the first picture of the big crowd. With his men he worked in the shaft house, using it as a dark room and stuffing cracks to keep out the sunlight. Within four hours pictures were shown on the train home.

Gallagher took his big picture immediately after Handy, and the big crowd, smelling the clam bake, shifted about uneasily and like a young colt, was hard to hold still.

William Denny, the most popular conductor on the Northern Pacific railway was resplendent in a new brown suit, brown derby and red carnation and was a perfect autumn poem. Denny is one of those quiet fellows who accomplishes a lot of things without any visible display of activity.

Among the Brainerd auto parties were Dr. and Mrs. Werner Hemstead, Judge and Mrs. J. T. Sanborn, Wm. H. Cleary, Dr. and Mrs. R. A. Beise, Mr. and Mrs. E. S. Bane, and others.

The Staples contingent included I. J. Cartwright and wife, John Effinger, Thomas McGuire, E. Kelley, George Robert, Joe Guith, Mike Durkin, John Downey, L. J. DeMeules. It was a matter of great regret that T. J. Sharkey, the Bull Moose candidate for state railway and warehouse commissioner, was unable to be present.

From Brainerd came Alderman and Mrs. C. B. Rowley, L. Knudsen, A. G. Trommald, G. S. Swanson, Sam English, John F. Russell and others. Many who remained in Brainerd are regretting that they missed the early train.

Chunks of manganese were carried home as souvenirs.

One lady donned rubber boots, hat and slicker of the miners and got some manganese on her lace dress as she descended and was hoisted back to the surface. Her chum stayed on top and snapped her picture as she emerged.

The band played good and created a most favorable impression. The only calamity occurred when the tuba player in marching on the grade to the camp lost in the spirit of harmony, missed his footing and slid down the bank. The leader missed his bass chug immediately.

Mother—Yes, one package makes two quarts of baby medicine. See directions. There is nothing just as good for babies and children as Hollister's Rocky Mountain Tea. 35c. Teas or Tablets. Adv.

MUSICAL CLUB

The Musical Club was entertained in a novel manner Saturday afternoon by a Victrola program provided by Miss Winnifred Small and Mrs. W. A. Fleming who had made a careful and varied choice from the best Edison records for the occasion.

Besides affording very keen enjoyment to the audience, these also gave a very convincing idea of what the Victrola can do in reproducing the music of voice and instrument.

The program was made complete and satisfying by a most interesting paper on "Mechanical Music," by Mrs. Mosier, who outlined in a very comprehensive way the history and nature of the various musical instruments, from the "pipes of Pan" and the "Harp of David," down to the complex present day instruments that have evolved from them. The concluding part of the paper was devoted to the truly mechanical musical instruments (the phonograph and Victrola) with a review of Thomas Edison's achievements in that direction.

At the close of the program announcement was made that the concert by the Danish violinist, Skovgaard, who comes under the joint auspices of the Musical Club and the Young Peoples society of the Norwegian-Danish church, will take place at the opera house on the evening of November 13th. Tickets may be obtained from members of either of the above named organizations for fifty cents with privileges of seat reservations.

Following is Saturday's program:

1. Selection from "Fra Diavolo" Vessella's Italian Band
2. Quartet from Verdi's Opera "Rigoletto," from Act III, "Fairest Daughter of the Graces." (In Italian.) Caruso, Homer, Abbott, Scotti.
3. Violin Solo, "Humoresque" by Dvorak Mischa Elman
4. Solo, "Thou Brilliant Bird," (David) (In French) with flute obligato. Luisa Tetrazzini
5. Duet, "Barcarolle" from Offenbach's Tales of Hoffman—"Oh, Night of Love" (In French) Farrar and Scotti
6. Duet—"Miserere," from Verdi's "Il Trovatore," with Metropolitan Opera Chorus Caruso and Alda
7. Paper—"Mechanical Music" Mrs. Mosier
8. Solo—"La Mandolinata" (In Italian) by Paladi Emilio de Gogorza
9. Violin Solo—"Meditation" from Massenet's opera "Thais" Maud Powell
10. Solo—"I hear you calling me," John McCormack (Marshall)
11. Solo—"The Last Rose of Summer" ---From Martha Alice Nielson
12. Duet from "Martha," "Lost, prescribed" Caruso and Journet
13. Solo from Wagner's Opera "Walkure"—Brunnhilde's Battle Cry Johana Gadske
14. Solo—"A May Morning" (Weatherly Nenza) Evan Williams

Pihlstrom-Hoff

Albert W. Pihlstrom and Miss Emilia Hoff, both of Wilmar, Kandiyohi county, were married Saturday, October 19th, at the home of the groom's brother, John Pihlstrom, of Northeast Brainerd, the pleasing ceremony being performed by Rev. A. Zabel.

The bride was attired in a beautiful gown of pink messaline silk trimmed with a network of lace. The witnesses were Mr. and Mrs. John Pihlstrom. After the ceremony a collation was served. They will spend their honeymoon in Brainerd and later will return to Wilmar to make their homes. The groom is employed on the Wilmar Republican Gaze.

The Dispatch joins their friends in wishing them all possible happiness and prosperity.

DEVELOPMENTS OF WEEK ON RANGE

Rich Strike Made at the Kennedy Mine Insures Its Working Full Force in Winter

CLEARWATER DISTRICT WORK

Aloha Mining Co. Files Release of Options on Tracts in Township 133, Range 29

The event of the week in Cuyuna iron range circles was the rich strike made at the Kennedy mine of the Rogers, Brown Ore company, at Cuyuna, when a drift 200 feet wide was uncovered in the west eighty, showing up a fine quality of ore. It is estimated there are two million tons of ore in the body, much of it assaying 62 per cent. This insures a full force at the mine through the winter.

A. J. Harker, of Duluth, has a drill at work on the Hunter farm situated in the west half of the southeast quarter and the east half of the southwest quarter of section 22, township 47, range 29.

William A. Hunt has filed a release of option to Sylvia J. Cook, the land being in the southwest quarter of the southwest quarter of section 35, township 43, range 32.

The drill which has been working on the Soule place in the Clearwater district at Bay Lake has pulled out for section 30, near Oreland. C. W. Potts and associates have placed a drill on the Earl Archibald forty in section 3, township 45, range 28, adjoining the Joseph Rutger forty on which the Hewitt Exploration company has an option and is now drilling. The same company is reported to have bought the Soule eighty at Bay Lake on which they have been operating a drill for the past three months. The options were secured by F. L. Pitt and by him assigned to the various drilling companies which are drilling them out.

The Aloha Mining company which has a number of Minneapolis directors and stockholders, has released options to lands situated in sections 3, 27, 23, 11, 1, 17 and 19, township 133, range 29.

Many residents of Brainerd will attend the Cuyuna-Mille Lacs Co. excursion to the mine next Sunday and enjoy their first ride on the Cuyuna Northern railway, an extension of the Northern Pacific from Deerwood to the Cuyuna-Mille Lacs Co. mine. A clam bake and bear barbecue will be one of the features. A section of the Third Regiment band, of Duluth, will furnish music.

The first ore of the south range was hoisted this week at the Barrows mine of the Virginia Mining Co., at Barrows, six miles south of Brainerd. It is ore of good quality and comes from shaft No. 2. This is the same shaft where traces of copper were found.

The manganese finds made at the Cuyuna-Mille Lacs and Iron Mountain Mining Co. mines continue to attract the attention of mining men and ore merchants.

Pitt Brothers have placed a drill at the east side of Bay Lake in section 14, township 45, range 28, outside of the Clearwater district. They have optioned quite a few tracts. Gaylord & Guith are drilling for them.

Joe Raymond has put in a drill near his addition. It may be that Raymond's addition will have to be termed Raymond's mine, as he has ceased selling lots and is now exploring it.

In looking up old land companies having holdings on the Cuyuna range the investigator ran across the St. Paul & Chicago Railway Co., which

OWA MAN STUCK WITH PITCHFORK

A farmer living in the Northern part of Iowa stuck himself in the leg with a pitchfork. The wound would not heal and for two years he had a running sore. He tried all the common salves and liniments and sometimes the sore would heal, but it always broke open again. Finally he healed it up to stay healed with Allen's Ulcerine Salve.

This salve is one of the oldest remedies in America and since 1869 it has been known as the only salve powerful enough to cure chronic ulcers and old sores of long standing.

Allen's Ulcerine Salve acts by drawing out the poisons and healing the sore from the bottom up. It is so powerful that it heals new cuts and sores in one-third the time that common salves and liniments take. And it heals burns and scalds without a scar.—Adv't.

DODGED TARIFF REVISION

Roosevelt, When President, Failed to Take Any Action.

Once in his life Mr. Roosevelt almost expressed an opinion on the tariff question. In a preliminary draft of one of his messages to congress as it came from the printer was this sentence. "In a later message I shall discuss the tariff." on revising the proof sheets of his message Mr. Roosevelt blue-pencilled that line. And he never came even that near to discussing the question again as long as he remained in the White House.

And yet the tariff law then on the statute books was far more objectionable than the Payne law, which he is now so vigorously denouncing. Why didn't he revise the tariff the way he now says it ought to have been when he had the power? He says now he wants to "fix it" so that more of the tariff "prize money" will go into the pay envelope of the workman.

Why didn't he "fix it" that way during the seven and one-half years he was in the White House?

In other words, in the face of his record while in office, is not all the Third Termers' present talk about the tariff the most transparent guf and bluff and balderdash?

Russia is famed for the manufacture of great bells. The "Giant," cast in Moscow in the sixteenth century, weighed nearly 320,000 pounds and required twenty-four men to ring it. In 1732 it fell, but its fragments were recast along with other metal into a bell which weighed 443,000 pounds, the metal of which alone is valued at \$300,000.

THOSE CONSTITUTIONAL AMENDMENTS

Though our attention is mainly engaged now-a-days, and with good cause, in the consideration of candidates, we should not overlook the fact that there's going to be some tinkering done with our Minnesota constitution in this same heat of election. With the thought that some local notice would call the attention of some voters to these proposed changes who might not otherwise be interested I herewith submit a few statements and comments in regard to them:

The comparatively light vote on amendments in the past is due, I fancy, partly to a failure on the part of many to clearly understand the meaning and effect of the propositions because they have not been familiarly discussed, and partly from a failure to rightly appreciate the nature of a constitution.

The constitution of a state is an instrument prepared first by the people through delegates in convention assembled for that purpose fundamentally to secure or conserve their rights and liberties in society; and to provide for a proper organization of society, for law-making and for limitations to law-making; for the enforcement of laws, and for the administration of justice and of all public affairs consistent with the well-being of the whole people of a state. It is then submitted to a vote of the whole people and when so ratified it becomes the fundamental law of the state, to the spirit and principles and evident intent of which all statutes or laws must conform.

It cannot be changed but by a vote of the whole people, and any tinkering as to proposed change of this expressed will of the whole people should be most jealously guarded as we would conserve our rights and liberties; not that it should be kept forever in its original form and provisions, but that when changes are proposed, though apparently ever so slight, the people should see to it through the increasing light and understanding that comes with the experience of the years that their rights and liberties are not infringed thereby, keeping in mind the old adage: "Great oaks from little acorns grow."

There are seven questions that will be voted on at this election. The first

is not a constitutional amendment. It is an act providing for the taxation of railroad properties; and an amendment adopted 41 years ago provides that all acts affecting the taxation of railroad properties must be submitted to a vote of the people. This act provides that the railroad companies shall pay (in addition to the present four per cent tax on their gross earnings from operation of railroads) a four per cent tax on their gross earnings within the state derived from all other sources whatsoever; and further that they shall pay these taxes semi-annually, while as the law now is, they may pay them semi-annually.

Isn't that worth the people's say-so? Would it do the railroads injustice?

The second is a proposed amendment to section 16 of article 9 of the constitution, authorizing the legislature to levy, in its discretion, an annual tax upon all the taxable property in the state not to exceed one mill, to be distributed among the counties of the state, no county to receive in any year more than three per cent nor less than one half of one per cent of the total fund provided and expended during such year.

It has been boosted all over the state as the "R. C. Dunn amendment." "The good roads amendment," etc. Much—very much has been said in its favor; in fact, I don't know that I have ever read or heard from a public speaker anything against it. But it is rare indeed, that a question affecting the pocket book doesn't have two sides. I too, would pronounce it all right only for two things: (1) The ugly, yet incontrovertible fact that our present general property tax system instead of equalizing burdens and benefits among the people of a state, as a tax system should do gives benefits to localities and certain classes of the people at the expense or increased burden to others; that under it many who have the name and credit of paying a large part of a tax merely advance the money having power to reimburse themselves from others; that it actually does in the large sense take from the mouths of the many and puts into the pockets of the few. If this fund were to be raised by taxes levied on all property the value of which was increased by the improved roads or bridges I should advocate its passage with all my heart and gladly pay my quota when the improvement came my way. As now proposed it would benefit me financially in common with all holders of land titles, but it would be at some one else's expense; which I am not willing to accept without protest. The second thing I would allude to is the manner of distribution of the fund. It is argued that it would lighten taxation, no doubt inferring that the amount received from the state would not have to be raised locally. But I've got it in my mind somehow and from somewhere (I can't give any authority, hence am open to correction) that it will be distributed somewhat in proportion to what the respective counties raise and expend on roads of their own funds. That would give "boosters" a handle to press the levy for local road and bridge fund to the limit. This is, of course, only my way of looking at it, and everybody knows that I'm a little queer.

Should this be thought worth while publishing would like to comment on further amendments later.

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapiesin" Stops Fermentation and Makes Your Upset Stomach Feel Fine in 5 Minutes

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul tongue coated—just take a little Diapiesin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary. Adv't.

PICTURES FOR WEDDINGS

Gifts should, first of all, represent good art; next, they should, as art reproductions, be of superior quality; finally, they should have the distinction of being unobtainable in any other form, an exclusiveness which especially enhances the interest and value of a wedding gift. It is a matter of general recognition that all of these considerations are met at our picture store.
